

## SELENE 78 OCEAN EXPLORER

*Guido de Groot* design

### A SUPERLATIVE EXPLORER

From Howard Chen and Guido de Groot's drawing board this prestigious yacht has no limits beyond the horizon whether in the Northern hemisphere cold and fascinating waters or under the tropics. It's a true and reliable explorer vessel with a stunning interior design, amazing outdoor entertainment space and the legendary Selene Yachts construction, grace and strength.

Master Cabin

*The Selene 78 Ocean Explorer is the result of an international collaboration of designers and architects under Howard Chen's design team leadership. Working closely with renowned Dutch architect Guido De Groot and a group of international consultants, we have developed a contemporary take on the long range yacht whilst capitalizing on our Selene Yachts quality construction and reputation for experience and innovation in the displacement yacht sector.*
